PRESIDENT TAFT AFTER FORMAL NOTIFICATION OF HIS NOMINATION REPLIES THAT NOMINATION IS ACCEPTED AND BELIEVES IT TO BE A MARK OF APPROVAL OF ACCOMPLISHMENTS HIS ADMINISTRATION

WASHINGTON, August 1.—President Taft was formally notified of his nomination today. Senator Root was the spokesman of the notification committee. Taft's reply was about 10,000 words. He did not mention Roosevelt's name. The ceremony was in the east room of the White House. Taft and Root were photographed before the ceremony. The thousand guests in the east room were also grouped informally. A reception and buffet luncheon followed.

Root's notification speech was brief and informal and laid particular stress to Taft's title to the nomination. "It is as clear and unimpeachable as the title of any

candidate of any party since political conventions began," he said. Taft replied in part: "I accept the nomination you tender with profound gratitude to the republican party, which has thus honored me twice. I accept it as the approval of what I have done under its mandate and as an expression of confidence, that, in a second administration I will serve the public well."

The president discussed without names the Roosevelt bolt and their plans for a reform government, declaring: "In the ultimate analysis I fear the equal opportunity of those who seek to proclaim the coming of the so-called social jus-

tice, which involves a forced division of property that means socialism."

"I will not say that two who now lead, one a democrat and the other a former republican, who have left their party in the attack upon existing conditions, in an attempt to satisfy popular unrest by promises of remedies, are consciously embarking on socialism. The truth is they do not offer definite legislation whereby happy conditions will result, the promise which will be brought about, but if promises mean anything they lead directly toward the appropriation which belongs to one man giving to another."

"But after we have arranged all

governmental machinery so as to permit an instantaneous expression of the people, in constitutional amendments, in statutes, and in the recall of public agents, what have we then? Votes are not bread. The constitutional amendment is not work. The referendums do not pay rent or furnish houses. The recalls do not furnish clothing. The initiatives do not supply employment and relieve inequalities in condition or opportunity. We still ought to have set before us definite plans to bring on a complete equal opportunity to abolish hardship and evil for humanity. We listen to them in vain."

PLEDGES MADE BY CANDIDATES FOR SENATOR VOTE

REPUBLICAN LEGISLATIVE CAN-
DIDATES AGREE TO ENDORSE
PEOPLES' ACTION

Republican senators and assemblymen elected in Nevada at the coming election have been urged to make the declaration that they will vote for the candidate for United States senator who has received the highest number of votes at the general election. This agreement was entered into by both parties at the election two years ago in the absence of the vote for United States senator and will also be in effect at the coming election.

H. E. Reid, chairman of the republican state central committee at Reno, has sent the following letter to Clay Tallman, chairman of the state democratic central committee, of this city, which is self-explanatory:

"As chairman of the republican state central committee I beg to inform you that this organization has instructed and is instructing by letter and wire all county chairmen to see to it as far as possible that all candidates on the republican ticket for state senator and state assemblymen make the declaration contained in sub-division B of section 5, of paragraph 1740 of the Revised Laws of Nevada, to the effect that they will always vote for that candidate for United States senator who has received for that office the highest number of the people's vote, etc., without regard to individual preference."

"In doing so we believe that we are following the precedent established in two preceding senatorial years, and I have no doubt that such practice will be followed by your committee. But I write you at this time to inform you of the action of this committee and also with the further object of later on proposing that the candidates for United States senator nominated at the September primaries enter into a similar agreement to that which was made during the campaign of two years ago, and which was initiated in the campaign four years ago."

"I will be glad to know your views in this matter."

BOTH PARTIES HOLD MEETINGS LAST EVENING

REPUBLICANS AND DEMOCRATS
ENDEAVOR TO FILL OUT
PARTY TICKETS

Political gatherings by both republicans and democrats were held in Tonopah last evening, the meetings having been called for the purpose of affording avowed candidates an opportunity to declare themselves and also to encourage others to run for office that both tickets might be filled.

The republican gathering occurred in the brokerage office of Ralston and Brown, while the democrats congregated in the office of H. E. Epstine, several doors up the street. In both instances the attendance was fairly representative and considerable trouble was experienced by the two parties in securing a sufficient number of candidates to fill the ticket. Several offices were passed up when it was found to be impossible to secure a candidate to accept the nomination and committees were appointed to make endeavors to fill the vacancies.

The date for filing nomination papers expires on Saturday, August 3, and it was urged upon all candidates and prospective candidates to file their papers without delay.
